

ISANTI COUNTY SHERIFF - WATER PATROL

LAKE USE PERMIT REGULATIONS FOR SLALOM

Because it restricts the public use of such a large area, the following regulations are to be followed closely:

1. The cities, if applicable, in which the course will be located **must** provide written comments regarding the course.
3. Surface floats **must** be removed when the event is done. Unless a permit is issued, the floats must be reflective and display the permit number on it.
4. The course cannot exceed 900 feet in length.
5. The course cannot be a navigational hazard.
6. The event cannot have an impact on the shoreline.
